

Fundraising Ideas

First and foremost, simply **send out emails** to your friends and family from your Be The Match Walk+Run participant center and encourage them to contribute! ***Hint*** send multiple emails...often times people want to give, but lose the email or forget so a reminder email is a great thing! (You can track the email open rate via your participant center as well.) Then promote your team through emails, posters and social media (see [Social Media Ideas](#) document for specific tips).

The Impact Your Donation Can Make:

- \$25 covers one clinic visit co-pay. Patients must visit the transplant clinic daily or weekly during their three to six months of outpatient recovery. Clinic co-pays can add up to \$300 a month.
- \$50 covers two days of meals for a patient and their caregiver during outpatient recovery.
- \$100 covers the cost to add one potential marrow donor to the Be The Match Registry, giving more searching patients hope for a cure.
- \$250 covers 10 monthly prescription co-pays. Many patients take 20 or more medications per day during recovery - that's \$500 in prescription co-pays each month.
- \$500 provides two weeks of temporary housing during recovery. If patients live more than an hour away from the transplant center they are required to relocate and live nearby for the three to six months of recovery. Many families spend \$800 to \$1,500 a month on temporary housing, while also covering a mortgage back home.
